

# Vodafone Mobile Connect USB Modem

## Key features

### **Simplicity - Plug and Go**

Software is built into the modem so all a customer needs to do is plug it in.

### **A high-speed and highly reliable connection**

Utilises Vodafone's 3G broadband network (HSDPA) with a speed of up to 1.4Mbps. That means customers can now download large files up to four times faster than with the GPRS card. And if they move from 3G broadband coverage, it seamlessly switches to the next best type of connection without interruption.

### **Compact, convenient and stylish**

There are no power cables to attach, it can be easily shared between multiple users and devices and its small, lightweight design means that it is easy to carry and looks great.

### **Extensive UK coverage and great for travelling**

Customers can roam on 3G broadband, 3G and GPRS in over 100 countries.

Take the Vodafone Mobile Connect USB Modem with you, and your office is wherever you are. The Vodafone Mobile Connect USB Modem is the fast and simple way to work on the move. Just plug it in, connect and you're working.
